Endo Access 8

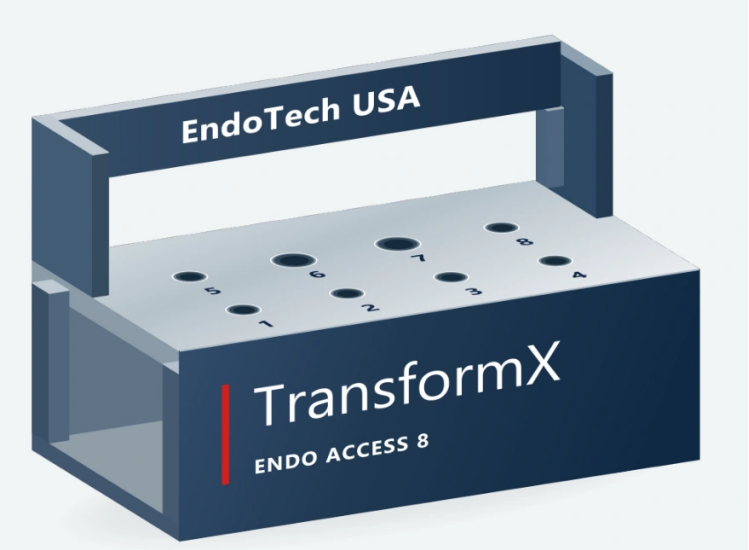

Eight burs and one mixed-shank stand

TXK-EA08-NS

The complete kit

Six friction-grip burs and two surgical-length latch-grip rounds sit in two numbered rows of four. Each position contains one instrument.

Concept illustration of the proposed empty stand.

Kit and stand options

Endo Access 8 8 individual burs + 1 stand	TXK-EA08-NS
FG Access 5 5 individual burs, positions 1-5, without a stand	TXK-EA05-NS
RA Refinement 2 2 individual burs, positions 6-7, without a stand	TXK-EA02-RA-NS
Endo Access 8 stand One empty stand for six FG and two RA shanks	TXA-EA08-HOLDER

Pre-release for order planning. Prices and commercial availability are unconfirmed. Choose the underlined part number to open the exact selection on the EndoTech USA site.

Components by position

Select a component number to open it in ordering. For positions 1-7, a separate refill contains five identical burs. Position 8 is listed as an individual bur for planning, with refill pack size to confirm.

SLOT	BUR / ENDOTECH PART NUMBER	SHANK	HEAD	LENGTH
01	**Round diamond 016** TXEA-D-R016-FG25-NS	FG	1.6 mm	25 mm
02	**Round carbide 012** TXEA-C-R012-FG25-NS	FG	1.2 mm	25 mm
03	**Cylinder carbide 012** TXEA-C-C012-FG19-NS	FG	1.2 mm	19 mm
04	**Safe-end diamond 012** TXEA-D-SE012-FG25-NS	FG	1.2 mm	25 mm
05	**Safe-end diamond 017** TXEA-D-SE017-FG25-NS	FG	1.7 mm	25 mm
06	**Surgical RA round #2** TXC-RAS-2-NS	RA	1.0 mm	26 mm
07	**Surgical RA round #4** TXC-RAS-4-NS	RA	1.4 mm	26 mm
08	**Taper safe-end diamond 016 / M851-016** TXEA-D-SE016-FG22-NS	FG	1.6 mm	22 mm

Three safe-end diamonds

Positions 4 and 5 are size 012 and 017, both 25 mm overall. Position 8 is the medium-grit, 22 mm Superline M851-016. The EndoTech number and Superline model identify the same instrument.

Matching an earlier kit

Endo Access 7 (TXK-EA07-NS) and stand TXA-EA07-HOLDER identify the previous seven-position design. Its original seven bur numbers carry forward into this kit.
